Subject: Re: Printed versions of the FS and Clean-up Plan

Dear Bob,

Thank you for your feedback and your request for additional copies of the FS and the Proposed Plan. The EPA would also like to thank you for your continued interest in the Portland Harbor cleanup.

To address the first part of your request regarding 15 printed copies in English of the Proposed Plan and FS, the EPA under federal law is required to provide materials "at or near the facility at issue" during the Proposed Plan public comment period (CERCLA 117(d)). As you know, for the Portland Harbor Superfund Site, the EPA has placed hard copies of the Proposed Plan and the FS at three information repositories (the Central Library, Kenton Library and St. Johns Library) to provide quality access for community members to review these materials. However, we understand that the Audubon Society of Portland is working hard to disseminate information about the Proposed Plan and FS to community members. To assist that effort, the EPA will provide the Audubon Society of Portland with 3 printed copies of the Proposed Plan and 3 printed copies of the FS in addition to the copies we have already provided with the understanding that the Audubon Society of Portland will make these copies available in a central location to community members so that multiple people will be able to access these materials, similar to the information repositories where these materials already reside.

In regard to the second part of your request for additional copies of the Proposed Plan and the FS in each of the other languages, the EPA, in anticipation of the possible need for such services, produced the Portland Harbor fact sheets and glossaries in Spanish, Russian, Vietnamese and Chinese. The Portland Harbor Proposed Plan fact sheet provides an excellent summary of the content of the FS and the Proposed Plan. Anyone may also access these translated materials on the Portland Harbor Superfund page at <https://yosemite.epa.gov/R10/CLEANUP.NSF/ph/Portland+Harbor+Superfund+Site>. Lastly, hard copies of these fact sheets and glossaries (in English, Russian, Spanish, Vietnamese and Chinese) are available at all of the information repositories for the Portland Harbor project (the Central Library, Kenton Library and St. Johns Library). The EPA would be happy to provide 5 copies of the Proposed Plan Fact Sheet and Glossary in English, Russian, Spanish, Chinese and Vietnamese to the Audubon Society of Portland.

Once again, thank you for your continued hard work in engaging the community. The EPA will arrange to drop off these materials with the Audubon Society of Portland soon.

Thanks,

Davis Zhen
